

**BRAND YOURSELF
2021 CATALOG**

Welcome to the Brand Yourself catalog 2021

We are proud to present a catalog with a product range consisting of items you easily can brand as your own. The clothes are made in durable quality so it can be worn and washed several times without significant changes to either shape or color.

Our clothing line is proudly designed in Denmark and produced in Bangladesh, Pakistan, or China.

Most of the products you see in the Brand Yourself catalog is certified GOTS or OCS-blended. Simply put, GOTS is for products made in 92-100% organic cotton and OCS-blended is for products in organic cotton mixed with virgin polyester.

In 2018 we started the process of converting into using organic cotton. The benefit of that decision is now evident since most of the products are either GOTS or OCS-blended certified.

It has always been a priority to act in a socially and environmentally responsible way.

Organic certifications

The products made with organic cotton are GOTS or OCS-blended certified. We have made our own tag, a cotton flower, to keep track of the products. If you see the cotton flower in the care label, the product is made from organic cotton.

We have not added the GOTS or OCS logos in the care label, because if you embellish the product with print or embroidery, the certification will be invalid.

In the catalog it is easy to see which products are certified; logos are placed at the products it concerns. In some products we still have some colors and sizes left in conventional cotton, which we hope you will be helpful with buying first to avoid waste.

Bags made in a responsible way

We can now offer you GOTS-certified bags.

We have different models in organic cotton and they are available in the following colors; nature, unbleached, and black. They are marked in the catalog with the GOTS logo and underneath the colors, you will find the text organic.

The bags made from organic cotton have a flag label in one of the sides, where you see the cotton flower and the text organic.

We have not added the GOTS logo to the bags, because if you embellish the product with print or embroidery, the certification is no longer valid.

Our Granite selection is a variety of bags in 100% recycled fabric made from fibers originating from used textiles and fabric waste from textile production.

Work Tee in organic cotton and recycled polyester.

One of the new items in this catalog is the ST312 Comfort Work Tee, which is made from organic cotton and recycled polyester.

This is one of the new initiatives we are taking in the ongoing process of acting responsibly. You will in the future see more products made from organic cotton and recycled polyester.

You can see the new ST312 Comfort Work Tee on page 15.

Brand Yourself

The clothing line you see in this catalog is meant for you to brand as your own. This is why it's called BRAND YOURSELF.

All the products are made with a small size label in the left side of the neck, leaving plenty of room for you to add your own logo and BRAND the product as your own.

Classic quality products

All the products are designed and manufactured in a durable quality and can be washed many times without significant changes to the shape or color.

It is a deliberate choice to make classic products that can be used by many and easily can be customized with print or embroidery.

Production in Bangladesh

Most of the products you see in this catalog are produced in Bangladesh at the same reliable supplier we have worked together with for more than 25 years. We firmly believe in the process of sustainable growth and development for mutual benefit, also for supplier and its employees. This belief goes well in hand with the process-oriented approach of the BSCI initiative, which we are also a part of.

Our top priorities are always to improve the quality of the clothes and to act in an environmentally and socially responsible way.

Certifications of the production

The factory in Bangladesh is BSCI, GOTS, OCS, OEKOTEX, Sedex and JAS-ANZ certified and the audits/certifications cover working conditions, social improvements, environmental issues, tests for harmful substances in the clothes, and many other aspects.

Some of the products are produced in Pakistan and China. These are mainly bags, aprons, jackets, caps and towels. The process towards socially and environmentally sustainability is ongoing.
